Anthony Wayne Chapter

Fort Wayne, Indiana

Welcome!

Another year is upon us for the Anthony Wayne American Society of Safety Engineers - Northeast Indiana's premier membership organization geared specifically for today's health, safety, and environmental professional.

As we look forward to having our best year yet I would like to extend a sincere thank you to all of our officers, members and regional HSE professionals for a great success we saw last year of chapter growth and professional speakers.

With our ever-expanding local network coupled with the vast national network of top level HSE professionals there has never been a better time to begin or continue to take advantage all the great resources our local and national organization has to offer. The opportunities for growth, networking, and professional development are abundant and increasing with each successful year.

ASSE provides a dynamic voice for the occupational safety, health, and environmental profession by providing advocacy, education, and standards development and by promoting the expertise, leadership, and commitment of its members. We look forward to continuing to provide our region's HSE professionals with chapter services of the highest value.

We are proud of our organization, both locally and nationally. Thank you for your ongoing support. We look forward to sharing a safe, healthy, and successful year together!

Most Sincerely,

Dan Turzillo – President

Anthony Wayne ASSE of Northeast Indiana
